Brewing Happiness Together

Our mission is to provide a one-stop shop for all the Brewing needs by providing utmost significance to Quality Products & exemplary Customer Service

Headquartered out of Dubai, Brewing Gadgets had the humble beginning in 2011. We have strived to offer the finest coffee brewing gadgets to extract that perfect shot of coffee. Our solutions encompass a wide range of products and brands – espresso machines, grinders, barista tools, brewing contraptions and other accessories.

Early Days

Our founder, fourth generation of a family in the Coffee business started his career as a Barista and went on to win the India Barista Championship in 2006. In the later years, he served as a Jury in the esteemed UAE and India Barista Championships. With technical and practical knowledge of day-to-day Café business operations, he soon realized the need for a centralized solution to help customers experience the third wave in the Coffee world. That was our Aha!! moment and the birth of Brewing Gadgets.

Our Business Model

In three words, Brewing Gadgets is “Big On Service”. We pride ourselves in being one of the most innovative companies in the Middle East and Asia Pacific world of Coffee. All this with a hallmark of excellence in quality and customer service.

- When it comes to quality, we treat our products like “Rocket Science” and deliver only the best. Our suppliers too believe and contribute equally to this motto
- As the distributors of most renowned brands in the market, we have a competitive edge in providing the latest models and the best pricing to our customers
 - Our consultants come with rich industry expertise to facilitate the unique requirements of every customer
 - We strive to provide our customers with a commendable service both pre and post-sales
 - We partially apportion our revenue for several charitable works

It is this attention to details and pool of knowledge that has seen our existing clients coming back to us for more and with a growing list of new customers coming into our fold.

A Big Thanks

We have grown our team with the addition of our new office in India and will continue to serve the community with utmost care and honesty. We thank our customers and partners for their continued trust and business with us. Last but not the least, a big shout out to the BG team for all their hard work and dedication.

We are just a call away for all your Brewing needs. Happy Brewing!!

Brewing Gadgets Team

**BARATZA
ENCORE BLACK &
WHITE**

**BLACK ID: 485-230V
WHITE ID: 410-230V**

The Baratza Encore is the ultimate entry-level grinder for your craft coffee journey – the key difference to the taste in your cup. It provides consistent grinds for brew methods from espresso to French Press and everything in between. Straightforward controls make your daily routine simple and easy.

**BARATZA
ENCORE ESP BLACK
& WHITE**

**BLACK ID: 495-ESP-BLACK
WHITE ID: 495-ESP-WHITE**

Optimised for precision, the Encore ESP delivers the grind resolution you need to brew creamy, syrupy shots of espresso. With simple turn-of-the hopper adjustments and the included dosing cup, the Encore ESP simplifies your espresso workflow.

**BARATZA
FORTE BG**

ID: 1086-230V

Winner – Best New Product, Commercial – Specialty Coffee Association Expo, 2013 This is the grinder your barista uses to make those pour-overs you enjoy at the café. Designed as a commercial solution to multi-offering pour-over bars, the Forte BG is a feature-forward, high-capacity, near-bulletproof grinder.

**BARATZA
FORTE AP**

ID: 1085-230V

The Forté AP (All Purpose grinder) is a compact, commercial grade grinder, dedicated to grinding for ALL brew methods. Designed as a commercial solution for low-volume cafes, a rock-solid espresso grinder with high-capacity and feature-density. Operated by a touch screen, has two grind modes: by time and by weight. Each mode carries three presets and a manual option, giving you plenty of ways to conveniently switch from one dose to another

**BARATZA
SETTE 270**

ID: 11270-230V

The Sette 270 sets the standard for high performance home espresso grinders with grind by time functionality. Offering 30 responsive macro-adjustments plus 9 marked settings of stepless micro-adjustment to let you dial in your shots time after time. These are directly connected the ground-breaking Sette series gearbox technology to provide near zero retention and a quick-accessible cleaning and maintenance process.

**BARATZA
SETTE 270Wi**

ID: 11270Wi-230V

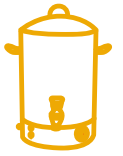

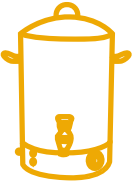

The Sette 270Wi is the first-ever home grinder offering grind-by-weight functionality directly into your portafilter or grounds bin. Dosage is calculated and controlled automatically by a precise digital scale utilizing Acaia weighing technology The i in Wi stands for intelligent – the grinder quickly calculates and self-adjusts after changes in coffee bean or grind size.

BROOD

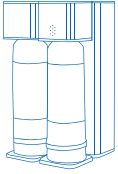

BROOD
DRNX DUO - NITRO
DISPENSER DOUBLE TAP

ID: NV2PXDRNX

FUNCTION: COLD NITRO & COLD STILL
POWER SUPPLY: 200 240 V / 50 HZ
PHASE: 1
AMPS: 1.8A
DIMENSIONS W/H/D: 11.75 / 14.75 / 19 IN
WEIGHT: 36.74 Kg
DISPENSING CAPACITY: 62 L/HOUR
COFFEE TEMPERATURE AT TAP: 36°F +/- 3°F
INTERNAL TUBING CAPACITY: 20 OZ
PRESSURE AT TAP: 34 PSI

Meet the world's fastest nitro infusion system. Engineered with the same advanced cooling technology as our tankless DRNX machine, DRNX DUO is outfitted with two taps instead of one to cut your service time in half.

BWT

BESTAQUA 16 ROC COFFEE

ID: 125255111

High permeate capacity of 120 - 180 l/h (depending on the model). High salt retaining rate of > 97%. High permeate yield of up to 50%. Adjustable and monitored output quality avoids corrosion risk. Very compact and service-friendly. Simple filter replacement without using tools.

BWT

BESTAQUA 14 ROC COFFEE

ID: RS82M01A00

Innovation of the Year 2019, sets completely new standards for optimising drinking water for the production of coffee, coffee specialities and other hot drinks.

BWT

BESTPROTECT M SET & CARTRIDGE

Bestprotect M Cartridge ID: 125501405 + HEAD

The BWT bestprotect filtration solution, using BWT's advanced technology, provides excellent protection for the equipment used to produce hot drinks in the food service sector

BWT

BESTPROTECT XL SET & CARTRIDGE

Bestprotect XL Cartridge ID: FS28N00A00 + HEAD

It is specially designed to achieve an optimum pH value and an excellent water mineral balance – both crucial factors in great-tasting coffee and espresso. BWT bestprotect is extremely effective against limescale and gypsum residues.

BWT

BESTMAX PREMIUM XL SET & CARTRIDGE

Bestmax Premium XL Cartridge ID: FS2AP00A00 + HEAD

PREMIUM taste in cup and mug
Well-balanced mineralisation in favour of magnesium
Highest efficiency with 5-way filtration
Including filtration of the bypass water

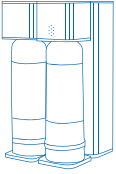

BWT

BESTMIN M SET & CARTRIDGE

Bestmin Cartridge ID: FS24M10A00 + HEAD

The balanced combination of natural minerals in the BWT bestmin filter adds the correct level of minerals to the water used in the food service sector, achieving an optimum brewing and full-taste experience for hot and cold drinks.

BWT

BESTTASTE 10 SET & CARTRIDGE

**Besttaste 10 Cartridge ID:
125501409 + HEAD**

Clear, pleasant-tasting water is essential in the gastronomy and vending sectors. Even if the local mains water contains low levels of calcium or minerals, professionally calibrated water optimisation is both required and essential for filtering out solids and removing any extraneous odours and tastes.

BWT

BESTTASTE 15 SET & CARTRIDGE

**Besttaste 15 Cartridge ID:
125501410 + HEAD**

Activated carbon filter system with integrated high-performance prefiltration

Particularly well suited to mains water containing heavy concentrations of solids and where demand for water is high

Perfect for optimising water for use in the gastronomy

BWT

BESTTASTE 20 SET & CARTRIDGE

**Besttaste 20 Cartridge ID:
125252022 + HEAD**

Integrated high-performance prefiltration of solids
High filter capacity
High-quality activated carbon
Activated carbon polypropylene fleece for consistently crystal-clear water

BWT

BESTCLEAR SET & CARTRIDGE

**Bestclear Cartridge ID:
FS30U00A00 + HEAD**

BWT bestclear is a special filter solution designed to achieve outstanding dishwashing results. Today's restaurant and catering guests have high expectations. They attach great importance to quality, service and perfection down to the last detail.

BWT

BESTCLEAR EXTRA SET & CARTRIDGE

**Bestclear Extra Cartridge ID:
FS30U10A00 + HEAD**

BWT bestclear EXTRA filter solutions serve to optimise water for dishwashing technology. Dining guests today attach great importance to quality and service. Restaurateurs and caterers who want to succeed in business must offer perfection down to the last detail.

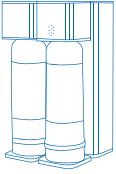

BWT

LIMESCALE PAD - BESTSAVE L

ID: KS12I00A00

Usable in all compact coffee and vending machines with built-in water tanks.

Easy to use and reliable. The very best quality drinks, consistently, every time. Safe and effective protection against limescale. Less maintenance and descaling required.

BWT

BESTHEAD FLEX

ID: FS00Z20A00

Filter head with innovative FLEX connector technology.

Fits all BWT water+more filter cartridges.

With integrated venting valve

For installation anywhere, particularly where space is tight.

Extensive FLEX connector technology available, in a range of dimensions.

BWT

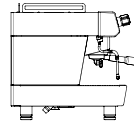

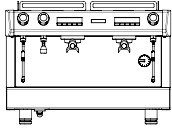

BESTHEAD

ID: FS00Y90A00

The BWT besthead filter head is a wonderfully simple technical solution. It fits every BWT water+more standard filter cartridge and is a part of the initial installation. The unique, as-necessary bypass setting is extremely simple to use and safe to operate due to the integrated locking mechanism.

BREWING®
GADGETS

CONTI MONACO

NL EVO 1G

The NL EVO is our simple, yet effective model designed for low to mid volume environments when something bespoke and unique is required.

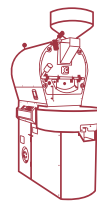

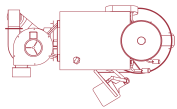

Built around the fundamentals of our CC100 range, the NL EVO is technology packed, built to last and offers the perfect solution for those special multi-site projects.

CONTI MONACO

NL EVO 2G

Color available: Black
Coffee groups automatic cleaning (after 50 coffees)
Power save mode (when not used)
4 programmable doses and 1 continuous dose per group
Pre-infusion possible on the espresso buttons (1 and 2 cups)
Removable basin
2 versions: Espresso (Height under spout : 80 mm) and Tall cup (Height under spout : 148 mm)
Copper boiler manufactured under CE regulations
Boiler auto refill and protection of the heating element
Stainless steel and aluminium body
1 hot water outlet
2 articulated steam outlets (stainless steel)

DIEDRICH

DR-3 COFFEE ROASTER

Batch size for the DR-3 is approximately 6.6 lb (3 Kg) of green coffee. Hourly capacity is approximately 12 Kg/26.4 lbs per hour of green beans. In addition to full batch capacity, our roasters are also designed to roast half batch.

DIEDRICH

IR-5 COFFEE ROASTER

The IR-5 is one of our most versatile roasting machines. It can still handle small batches down to 250 grams (½ a pound), but it can also handle a 5kg (11 lb) load. And while the finish might be subtle, there's nothing subtle about this roaster.

DIEDRICH

IR-12 COFFEE ROASTER

The IR-12 is the biggest machine in our IR-Series. Using our innovative infrared technology, it can handle everything from half a pound to 12 kilograms (26.4 pounds) with complete precision. Like all our roasters, the IR-12 can significantly save energy and reduce the amount of harmful gas exposure to your coffee.

LA MARZOCCO LINEA CLASSIC S

Built to embody the spirit of three words, reserved, reliable, and consistent, the Linea Classic S can be trusted to be a dependable partner in any coffee program. New features provide baristas an easier coffee making experience, while also increasing the reliability of a machine which has already set the standard in the industry. Timers allow baristas to track the brew time of espresso. Dual PID provide consistent temperature in the separate steam and coffee boilers.

LA MARZOCCO LINEA PB

The Linea PB features the iconic La Marzocco polished stainless steel body, updated with simplified lines and a lower profile, equipped with exclusive, user friendly interface software that gives the barista direct functional control over boiler temperature, brewing volume, hot water tap dose, auto-back flush as well as other options. The Linea PB's lower profile and increased work area also make it practical, without abandoning world renown Italian design.

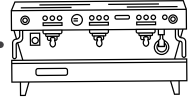

LA MARZOCCO GB5 S

The new GB5 S features a revamped visual identity which modernizes the machine without sacrificing the look, premium feel, or dynamic elegance. The two red lilies on the side shields recall the company's Florentine heritage while the front panel has been redesigned to increase group visibility. The second generation GB5 is the first series of La Marzocco machines equipped with a water sensor that measures the conductivity and hardness of water as it enters the machine.

LA MARZOCCO KB90

The KB90 sets a new standard in high volume cafe performance striving to make great espresso faster, cleaner, and easier. Ready for a new way to work fast and efficiently? The revolutionary Straight In design simplifies and eases the motion of locking-in the portafilter to the group-head, every time. Improve the natural workflow and output within a high-volume café!

LA MARZOCCO STRADA AV

Featuring iconic Italian design and user-friendly interface. Auto-volumetrics ensure repeatability and consistency in high-volume settings. High performance steam wands that are cool to the touch. Making it possible to update the firmware.

AW-600 WATER ACTIVITY ANALYZER

ID: AW-600

The AW-600 portable Water Activity Analyzer is designed to measure the vapor pressure of free water escaped from samples to the air in the test chamber to predict the condition of growth of bacteria, there are two measurement mode: Quick Mode and Equilibrium Mode. The AW-600 is a compact, portable, easy to use, reliable and robust designed product.

LIGHTTELLS
MD-500 MOISTURE-DENSITY ANALYZER

ID: MD-500

The Lighttells MD-500 is a capacitance based Moisture and Density Analyzer. It supports cherry, parchment, green beans and roasted beans measurement. Compact form factor design allows you to carry it everywhere you need for measuring moisture and density.

MAHLKONIG

EK43T - BLACK / WHITE COLOR

Special burrs for grinding Greek-Turkish coffee
Suitable for different grinding coffees and different finenesses as e.g. Turkish, espresso and filter coffee

MAHLKONIG

EK43ST - BLACK / WHITE COLOR

The performance and grinding results of the established EK43 within a smaller space-saving corpu
Outstanding particle size spreads feature high extraction rates and the best possible taste
Premium cast steel grinding discs

MAHLKONIG

EK43 & EK43T BURR SET

EK43 BURR SET ID: 303931
EK43T BURR SET ID: 303939
Set of burrs for coffee or spice grinding fitting EK43 and EK43T grinders

MAHLKONIG

SHORT HOPPER

ID: 101388

Short hopper fits Mahlkönig's EK43, EKK43, K30 Vario and K30 Air, and even the Mahlkönig Tanzania grinders. It holds about 500 grams of beans, and stands just about 6 inches tall. If you're into single-dosing your EK43, or you just want a more diminutive hopper, this is the option for you.

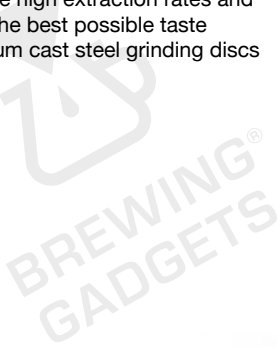

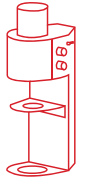

MAHLKONIG

EK43 MINI-HOPPER, BLACK

ID: 701553

The EK43 mini-hopper is the perfect accessory for streamlining your EK43 or EK43S for espresso workflow
Includes a spring loaded closing device that will automatically close upon release
The closure can also remain in the open position when you need full access for grinding
The hopper has a total capacity of roughly 250 grams of coffee

MARCO

BRU F45M

ID: 1000900

Energy efficient pour and serve coffee machine.

MARCO

BRU F60M

ID: 1000902

Approximate brewing time (for 2.2 litre coffee) after water is filled: 3-5 minutes. Requires 2.2L server/airpot (sold separately.)

FRIIA HC Plus is a hot/cold undercounter water delivery system with 8L immediate draw off hot-water.

MARCO

MT8 WITH FILTER

ID: 1000763F

New from Marco. MT8 Commercial water boiler with tap and in-built filter. Stainless-steel casing with minimal countertop footprint. Insulated tank for energy-efficiency. Compatible with hands-free tap adapter.

MARCO

MT DOUBLE-TAP

ID: 1000764

New from Marco. The MT Double-Tap commercial water boiler. Dispenses hot and ambient water from the same system. Stainless-steel casing with minimal countertop footprint. Insulated tank for energy-efficiency. Compatible with hands-free tap adapter.

MARCO

OTTOMATIC® COFFEEMAKER

ID: OTTO-230V

Automatically manages key brewing variables

- Pre-Infusion
- Contact time of water to coffee
- Heating water to the Specialty Coffee Industry target temp (197.6F-204.8F)
- Hot Plate which keeps the coffee warm without burning or compromising flavor.

MOCCAMASTER

HANDMADE

MOCCAMASTER

KBGT

Every Moccamaster Coffee Brewer is handmade and individually tested in the Netherlands using only quality European materials. Dimensions - 7.1 x 12.2 x 15.4 inches.

A unique copper boiling element ensures water will always be in the correct temperature range (196-205 F) for the entire brewing process; this is essential for proper coffee extraction.

Brews a full carafe in 6 minutes. 100% recyclable, from the packaging material to the brewer itself.

ECBC, SCAA, SCAE approved

The Technivorm 1.25 L Thermal Carafe for KBT, KBGT, and CDGT Brewers is an authentic replacement part to be used only with compatible Technivorm products. Made in the Netherlands.

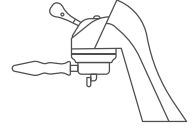

MOCCAMASTER

GOLDFILTER NO. 4 FIT FOR YOUR MOCCAMASTER

ID: 85023

All natural Coffeeflavor
Reusable - permanent - long lasting
Taste the coffee, not the filter
Stainless steel golden foil with titanium hardcoating
Neutral in taste, non absorbent material
Smooth surface with micro-openings
Handle for easy removal
Dishwasher safe

MODBAR

ESPRESSO AV

The product of years of collaborative R&D between Modbar and La Marzocco, and based on R&D from the Linea PB and Linea Mini, Modbar Espresso AV comes with the same level of reliability, performance and temperature stability that made the Linea PB an industry icon.

- One under-counter module can support two espresso taps
- No additional power required to support two taps
- Ideal for high-volume environments
- Precise temperature stability, the same as the Linea PB
- Simple controls and multi-position programmable lever
- Dose by volume, weight or continuously
- Auto back-flush and rinse programs
- Adaptable drip tray comes with or without a built-in scale

MODBAR

STEAM

Recreate a traditional espresso machine with two Steam systems next to your Modbar Espresso, or set up distinct service areas to suit your workflow. We've even seen cafes add Steam (rather than purchasing a second espresso machine) to boost throughput.

- Double wall pro touch stainless steel wand to prevent burns
- Ergonomic handle designed to match Espresso AV
- Two steam tips included
- Simple on/off switch controlled by solenoid in the module
- Minimal purge required with no steam valve rebuilds
- Omnidirectional ball fitting for ambidextrous use
- Right-hand side connections for easy service access

THE MORNING MACHINE

The Morning Machine is the new standard in the home coffee experience. With precision-controls that maximises flavour of each cup. Connected for convenience to deliver the perfect cup of coffee at the touch of a dial.

Features from professional coffee equipment and adapted them for capsule coffee so you can enjoy convenience, consistency and quality like never before.

What better way to brew your coffee than with recipes developed by the roasters themselves? Discover and download your favourite roaster recipes to enjoy the perfect cup. Every single time.

PROFITEC

PROFITEC

PRO 400

The PRO 400 is a compact and powerful heat exchanger machine that is footprint saving. The included different colored valve disclets allow you to change the look of the machine in no time.

Technically, the PRO 400 is an espresso machine in a class of its own. A convenience switch underneath the machine allows three preset temperatures to be easily chosen and to activate or deactivate the preinfusion and the ECO mode.

PROFITEC

PRO 700

ID: 10700UK

The PRO 700 is a semi-automatic, dual boiler espresso machine with PID-display. The temperature for both boilers may be adjusted individually.

The display shows the brewing time with up to the second accuracy. The steam boiler has a dedicated on/off switch. The PRO 700 may be used with water tank or fixed water connection.

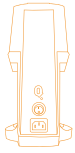

PROFITEC

E61 FLOW PROFILE VALVE P1065

ID: P1065

E61 Flow Control Device allows you to adjust the flow of water in your brew group to manually profile your extractions. This custom component is a stainless steel needle valve, which allows the user to vary the amount of water flowing through the group. Variable flow control allows for lengthy pre-infusion for more even saturation and extraction of your espresso.

ACME UNION MUG 230ML

Outside diameter: 86mm
Base diameter: 74mm
Height: 87mm
Volume: 230ml

The Acme 230ml Union mug is perfect for a hearty milk-based coffee or filter coffee. Modelled after a 1930's Aotearoa, New Zealand rail union cafeteria mug. Comes in a range of three beautiful colours plus white and eggshell.

AEROPRESS GO TRAVEL COFFEE PRESS

ID: 15R11

Delicious coffee anywhere: Optimized for traveling, camping, boating or just at work
Simple: Smart design is easy to use and clean up takes seconds

AEROPRESS COFFEE MAKER

ID: 85R11

Rapid, total immersion brewing process makes delicious full flavored coffee without bitterness
Makes 1 to 3 cups per pressing in about one minute

AEROPRESS COFFEE MAKER CLEAR

ID: 90CL11

Aerobite iconic press, made with the same patented technology, now available in crystal clear, shatterproof Tritan™. Cool enough for display, tough enough for the road.

AEROPRESS PAPER MICRO-FILTERS

ID: 81R24

Replacement Filter Package for the Aerobite Coffee & Espresso Maker
Filter
Diameter: 6.4cm
Quantity: 350 Micro-Filters/pack

AEROPRESS REPLACEMENT FILTER CAP

ID: ABTC

Replacement filter cap for Aerobite Aerobite coffee maker
Same size, color, and material as the original part
Guaranteed to fit Aerobite Aerobite
BPA-Free Polypropylene Plastic

AEROPRESS COFFEE MAKER XL

ID: XL005

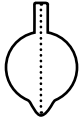

Our iconic press, made with the same patented technology, now with double the capacity. Includes a 20 oz carafe made of crystal-clear shatterproof Tritan

AEROPRESS PAPER MICRO-FILTERS - XL

ID: XLFCS

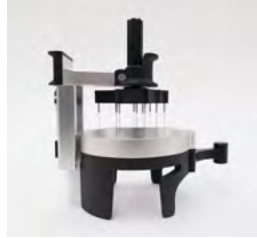

Designed for use with the AeroPress XL coffee maker, our paper micro-filters are an essential part of the brewing process that keep grounds from entering your cup.

**BARISTA HUSTLE
TAMPER WITH CASE
58.4MM**

ID: 3001MB58

The most repetitive motion behind bar deserves better. The Tamper's 58.4mm diameter fits a VST basket exactly while the unique double flange not only eliminates the frustrating vacuum effect but also helps keep you vertical. Made with military-spec type III hard anodized aluminium with a 304 stainless steel flat base, the Barista Hustle Tamper is durable but lightweight to minimize fatigue.

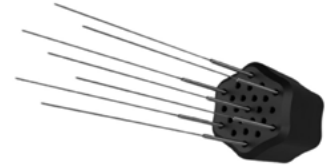

**BARISTA HUSTLE
AUTOCOMB**

ID: BHAC001

Our long-awaited solution to the espresso grind distribution problem. A hand-powered WDT tool built for speed and durability.

The AutoComb spins 12 carefully arranged needles at high speed. This movement mechanically fluidises the grinds organising them into a fluffy and homogenous mass ready for tamping.

**BARISTA HUSTLE
THE COMB**

ID: BHCMBI

Silicone Rubber handle
501 Grade Stainless Steel Material
Rounded needles for safety
25 pockets and 30 needles
0.35mm diameter
Take on the Weiss Distribution Technique or WDT; one of the longest standing espresso distribution methods. The handle is made of soft silicone rubber with 25 thoughtfully placed holes for a wide array of needle combinations.

**BARISTA HUSTLE
TITAN BREW STAND**

ID: 3003SSR58

For 58mm Basket
304 stainless steel material
Mirror Finish
Cleanliness is next to baristaliness. If your workflow involves coffee grinds and a portafilter, chances are the Ring can help. Magnetised, mirror polished interior, and fully stainless steel; we couldn't make it any better.

**BARISTA HUSTLE
TEA SCOOP**

ID: CB24PC-Pack

Comes with 24 x bowls
100% food grade high density polyethylene (HDPE)
Stackable
Heat-preserving
Ceramic cupping bowls are far from perfect. They're expensive to ship, break easily, and steal heat from the coffee.

BARISTA SPACE BLACK TAMPING STATION

ID: T1-53

For 53mm portafilter
For optimising the tamping pressure
Ensures optimum espresso extraction
The rubber ring ensures the filter holder
sits gently and doesn't slide around
during tamping
Not dishwasher-safe

Horizontal shift per click of Target Maximum in bimodal Normal Distribution of total particles.
Change of particle size per click (typical): 15 Micron / 0,015 mm
Narrow Blade Gap at burr exit: 5,5 Micron per click (typical)

CUPTIMO

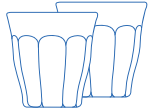

MANUAL VACUUM COFFEE BREWER

ID: CUPTIMO

Full flavor because of zero-bypass vacuum extraction: As all brewing water is pulled through the full height of the coffee bed, an even, efficient extraction is achieved and the occurrence of channeling is minimized.

Reduced bitterness and astringency through the reduced brew time and because all water has to pass through the full height of the coffee bed, effectively filtering out the big coffee compounds causing astringency.

Grind size according to taste preference: Most brewing methods require a specific grind size to work properly. Cuptimo offers the possibility to choose grind size of a very wide range (2 to 20+ clicks on the Comandante Grinder). Finer grinds make it easier to extract light roasts as well as producing an even extraction as the particle size variation is reduced.

DURALEX

PICARDIE CLEAR GLASS 6 SET OF 9CL

ID: 1023AB-9CL-6PC

Known as the “original French tumblers”, the tempered Picardie glasses are functional and stylish - they feel extremely comfortable in your hand. Named after the

GOAT STORY

GOAT STORY

GINA SMART BREWER BLACK & WHITE

BLACK ID: GINA SMART-B
WHITE ID: GINA SMART-W

Gina consists of three main parts - conical dripper with a valve, base with a built-in scale with a Bluetooth module, and glass server. The set also includes an additional vessel for preparing cold-drip coffee.

The device is modern and well-designed - the dripper is made of porcelain, there is a borosilicate glass carafe, and other elements are made of stainless steel. All of the parts are fitted perfectly, and the construction is solid.

The set includes:

- a complete Gina Brewer with scale and Bluetooth module
- glass carafe (750ml)
- 50 drip paper filters
- 50 cold brew paper filters
- USB cable

Colour: Black & White
Width: 16.3 cm
Height: 34.5 cm
Depth: 13.5 cm

CUPPING SPOON KASUYA MODEL

ID: KCS-1-MB

This sleek matt black cupping spoon is made of smooth stainless steel. By keeping the visual information on the liquid such as color and clarity as minimal as possible, and the smooth, hygienic material free from lingering odors and stains, it lets you solely focus on the aroma and mouthfeel without getting distracted.

BAMBOO STIRRER PADDLE

ID: BA-15

Soft, efficient, a good length for any brew method, and paddle shaped to give a more even agitation. It's also really easy to keep clean as all it requires is a wipe down with a damp cloth after use, then left to dry.

450ml ID: TEO-45OV
700ml ID: TEO-70OV

We gave it a natural look by making the wooden parts from olive wood. Pull the strainer up once tea has reached the desired strength like a tea bag. Therefore, you can get a second cup that is as good as the first.
Unique design
Hot tea pot

HARIO

MELODRIP

STAINLESS

The original melodrip with a stainless steel handle is now in the hands of top competitors, coffee professionals, and home enthusiasts world wide.

This new approach to brewing is derived from thousands of hours of research and feedback from the most discriminating coffee brewers in the specialty coffee space and its benefits continue to be explored by hundreds every day.

Simply follow the instructions we include, which recommends a mix between bare kettle and melodrip showering.

Simply hold melodrip close to your pourover brewbed and gently pour water over it as you would a regular pourover.

The resulting cup will be strikingly clean, sweet, and less bitter even at high concentratio

Used for cocktails like mojitos, mint juleps and many more
Essential home bar supplies for any cocktail enthusiast

PULLMAN

HANDLE WITH BIG STEP BASE, MK II 440C

Mark II is a fancy way of saying “version 2” and we like to be different... Also, the boss man kind of liked it. 440C however, is more deliberate. This is a 440 grade stainless steel, and has the highest carbon content for a 400 stainless steel series. It is then heat-treated to reach 43-45 HRC. (let’s just say it’s freaking hard!)

PULLMAN

HANDLE WITH 58MM BASE

Stainless steel bases are precision-machined with True Tamp rings for a consistent and level tamp. An ergonomic synthetic rubber compression zone for maximum comfort; also minimises high-volume fatigue.

JARAH HANDLE CHECKERBOARD HANDLE OAK HANDLE WALLNUT HANDLE

PULLMAN

PORTAFILTER HANDLE WITH ROCKET BOTTOMLESS GROUP HEAD / E61

Add to your Premium Pullman collection with a stunning Portafilter handle. Match your decor or your Pullman Tamper and be the envy of the Barista community with a stunning set.

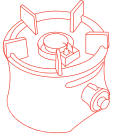

JARAH HANDLE CHECKERBOARD HANDLE OAK HANDLE WALLNUT HANDLE

PULLMAN

PORTAFILTER HANDLE WITH LA MARZOCCO BOTTOMLESS GROUP HEAD

As perfectly designed and balanced as your tamper, your espresso machine will thank you for the extra glam. The Pullman Portafilter handle will fit all unscrewable portafilters. Available with 10mm or 12mm adapter so it can be screwed into your own portafilter group head.

SOY

COPPER TURKISH COFFEE POT, SILVER LINING INSIDE

Handle: Right
 Material: 1.5mm thick copper allows ideal heat conductivity.
 Shape: The smaller rim diameter with a wider bottom allows for firm foam development without the need to overheat the slurry.
 Spout Shape: Prevents loss of foam during pouring.
 Handle: The bronze handle is the proper length and angle for ergonomic pouring as well as the attachment to the pot helps to prevent the handle from overheating.

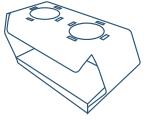

SOY

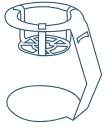

COPPER TURKISH COFFEE POT, TIN LINING INSIDE

Handle: Right
 For anyone really wanting to enjoy Turkish Coffee, a Soy Cezve is the must. This Cezve, like all our copper range, is entirely handmade from 1.5mm copper and plated professionally with thick coating of tin that is good for a lifetime, even on professional use.
 This Professional Cezve is used on a daily basis at work by many professional Baristas, including Vadim Granovski (Ukraine), Zoltán Kis (Hungary, Cezve / İbrik World Champion 2012) and of course Turgay Yıldızlı (Turkey, Cezve / İbrik World Champion 2013). As these references will gladly tell you, they are truly the best in the World and remain unmatched to this day for the purest Coffee experience.
