Dr.Coffee F11 Pro Series

The F11 Pro series perfectly embodies the principle that "concentration is the essence," featuring a compact and exquisite design along with a noble and elegant appearance. It is suitable for various high-end business environments, such as VIP centers, offices, and lounge areas.

Component upgrades

The switch valve is upgraded to solenoid valve, which makes the performance more stable and helps users save daily maintenance cost.

Refreshed interface

Equipped with a new operating system, the operation interface is more beautiful, the operation process is smoother, and the experience is significantly upgraded.

Freely defined

Add custom functions to the system interface, such as the modification of logo and drink pictures, to meet the customization needs.

Smart connectivity

It supports MDB and IOT functions and provides solutions for customers' terminal payment, remote control, and operation management.
